The Jackson is a perfect ranch style home. The main floor consists of all the essentials showcasing the owner's suite, laundry room, and study room. The owner's suite contains a pleasing four-piece bathroom. The architects held nothing back when designing the kitchen; it is made up of a welcoming boomerang style island and a great amount of space. The basement has everything a family would want, including an in-home theater! On top of that there is a spacious recreational room. In the basement you will also find two bedrooms; one with a walk-in closet and a bathroom consisting of two sinks for the two separate bedrooms. Prices, plans, and terms are effective on the date of publication and subject to change without notice. Depictions of homes or other features are artist conceptions. Hardscape, landscape, and other items shown may be decorator suggestions that are not included in the purchase price and availability may vary.

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
