McKinley Floorplan at Metro Arcadia — Grand Design Meets Effortless Comfort Welcome to the McKinley floorplan, the largest of our featured homes in Metro Arcadia, where elegant design and modern functionality come together in perfect harmony. With 2,105 square feet, four to five bedrooms, and up to three bathrooms, this thoughtfully designed single-story layout redefines spacious desert living in Las Cruces, NM. From the moment you enter, the McKinley impresses with a wide foyer and an expansive great room that connects seamlessly to the kitchen and dining area. This open-concept flow creates a natural gathering space for entertaining, relaxing, or simply enjoying quiet evenings at home. Furthermore, the kitchen was designed with both beauty and practicality in mind — featuring ample counter space, a central island, and designer finishes that elevate every detail. Beyond that, a nearby dining area offers the perfect setting for family meals or hosting guests with ease. The private owner's suite is a true retreat, complete with a spacious walk-in closet and a spa-like bathroom featuring dual vanities and an optional walk-in shower. Meanwhile, the additional bedrooms provide flexibility for growing families, multi-generational living, or a dedicated home office. Equally important, the McKinley offers options to personalize your layout — from a fifth bedroom to enhanced outdoor living spaces — ensuring your home fits your lifestyle perfectly. In addition, energy-efficient construction and premium materials ensure long-term value and comfort. Located just minutes from Red Hawk Golf Course and the Organ Mountains, Metro Arcadia offers a lifestyle that blends recreation, community, and convenience. Altogether, the McKinley floorplan delivers everything today's homeowner desires — generous space, sophisticated design, and a connection to the natural beauty of Las Cruces. Home Details 2,105 sq. ft. 4-5 Bedrooms / 2-3 Bath

All square footage is approximate. Renderings are artist's conceptions and may vary slightly from the actual home. Homes may be built in reverse of plans shown, depending on site conditions. Minor architectural changes may be made occasionally at the option of the builder. Please contact your Sales Consultant for details.
